This 600-page volume, published in November, contains the names and teaching assignments of all secondary teachers in California. Features of the book include:

* Administrators and all teachers of each junior high school, high school, junior college, and evening school. Subjects taught by each teacher are listed.
* Personnel of state, county, and city departments of education.
* Members of all county boards of education.
* Faculty of all schools of education in universities, accredited institutions, and state colleges.
* Enrollment statistics and names of administrators for California private secondary schools.
* Other useful information, including the names of all librarians of county free libraries and of officers of California educational associations.
* An alphabetical index of all names—over 38,000.
* Indexes of both public and private schools where the name of the school differs from the location.
* Index of advertisers.

The DIRECTORY is published for the benefit of school officials and business houses. Price, $10 a copy, plus 3% sales tax on all orders to be delivered within the state of California. Place orders with:
